A SHARED–USE PATH can be provided for a safe route for pedestrians, cyclists, and other non–motorized users.

A SIDEWALK can provide dedicated space for pedestrians that is safe, comfortable, and accessible.

IL 60 to Cedar Lake Road

Provide connections between: Millennium Trail of Volo to Nippersink Forest Preserve

Cedar Lake Road to Hainesville Road

Provide connections between: Nippersink Forest Preserve to Hainesville Road Trail

Hainesville Road to Lake Street

Provide connections between: Hainesville Road Trail and Grayslake Providing access to: Grayslake Metra Station, St. Gilbert Catholic School, Westlake Christian Academy, Grayslake Central High School, Grayslake Middle School, Central Park, Grayslake Area Public Library

Lake Street to Atkinson Road

Provide connections between: Grayslake and Atkinson Road Trail

Atkinson Road Trail to Almond Trail

Provide access to Wildwood, Warren Township High School, Woodland Elementary School, Woodland Middle School, and Warren Township Park

What We Heard

- Provide safe pedestrian crossings at all major intersections along IL 120.
- Improve non-motorized access to Lake St to service:
  - Grayslake Metra Station
  - Grayslake Central High School
  - St. Gilberts Catholic School
  - Westlake Gristian Academy
  - Central Park
  - Grayslake Area Library
- Provide additional pedestrian crossings between Allegheny and IL 83.
- Provide a shared-use path the length of the project corridor, giving people without a car the option to commute safely to school or work.
- Close the gaps in the existing non-motorized facility network. Make connections to existing trails such as the Millennium Trail.
- Improve connections to transit and provide safe place to wait.
- Expanded service and improved coordination of transit.
